ASHISH TELGOTE

AI-Enabled Product Manager | Product & Engineering – Digital Transformation

+91-8446238633 aashish.telgote@gmail.com aashishtelgote github.com/aashishlabs Mumbai, MH

EXECUTIVE SUMMARY

A Full-Stack AI-Enabled Product Manager & Digital Transformation Leader with 10+ years of experience building, scaling and transforming Digital Banking, Payments & Lending platforms across Banks, NBFCs, Fintech Startups and Payment Aggregators. Combines product strategy, technical fluency, data-informed decision-making and regulatory/compliance expertise to translate business priorities into executable roadmaps. Proven record leading cross-functional and matrixed teams (Product, Engineering, Risk, Compliance, Operations) through ambiguity to deliver measurable business outcomes - from 0-to-1 product launches.

PROFESSIONAL EXPERIENCE

AVP – Product Lead (Product & Engineering Dept.)

NTT DATA Payment Service India Ltd Jan 2025 - June 2025 Mumbai, MH

- Owned the Online Payment Gateway product vertical and led three Product Managers, aligning roadmap priorities with business growth, customer needs, operational resilience and regulatory commitments.
- Built and led cross-functional alignment across Business/Sales, Marketing, Operations, Banking Alliances, Settlement & Payout, Risk (RCU), Customer support, and Compliance – translating competing priorities into unified technical execution with Dev, QA, L1, L2 and Infra teams.
- Directed BAU operations, automations, and strategic initiatives while architecting quarterly roadmaps that guided banks, NPCI and vendor partnerships toward enhanced payment solutions and streamlined process.

Chief Manager – Digital Transformation

L&T Finance March 2024 - Jan 2025 Mumbai, MH

- Led end-to-end strategy and execution for two flagship rural lending products (Farm & WRF) portfolio, directing a nine-person team, governing BAU and setting the quarterly strategic roadmap presented to senior leadership.
- Championed cross-functional alignment across Business, FLOs, Operations, Credit (Underwriting), Risk, & Compliance with Technology teams (Dev, QA, L1, L2, DMS, EDW, SFDC, BRE), driving a 50% acceleration in product delivery speed through Agile Transformation.
- Partnered with the CDO's office to champion an AI-powered underwriting and credit decisioning engine, reducing loan disbursal TAT by 40%, while initiating and leading the Farm Journey Revamp to deliver Farm Application V2.0 with enhanced efficiency and functionality.

Senior Product Manager/AVP

Leo1 (Formerly FinancePeer) Jan, 2023 - July, 2023 Mumbai, MH

- Led the development and management of a robust Loan Management System (LMS) in partnership with TSP-Onefin, successfully onboarding three major lending partners, streamlining operations, and enabling seamless transaction processing of 60M ~ 70M per month.
- Implemented an innovative online payment collection solution, driving a 25% increase in collections, while collaborating closely with compliance teams to ensure alignment across existing and new product initiatives.
- Optimized feature prioritization by balancing customer value with development effort, crafting detailed user stories based on business requirements alongside internal and external stakeholders, resulting in accelerated delivery and significant business impact.

Product Head/Co-Founder

UDMA Technologies Private Limited – A FinTech Startup July, 2021 - Dec, 2022 Bangalore & Udupi, KA

- Spearheaded and led a cross-functional team of 8 (Developers, QA, BA, Project Manager, Digital Marketing, and UX Designer), fostering a high-trust, collaborative culture while defining quarterly product roadmaps aligned to strategic business goals.
- Partnered closely with the CEO and CFO to redefine the business model, manage external counsel, and negotiate and close major commercial contracts; drove go-to-market for 3 digital products, scaling adoption to 1.5L+ users through persona-led feature journeys and optimized onboarding funnels.
- Led the development and launch of new FinTech products, including BBPS, Prepaid Wallets, Neo-Banking & UPI, and contributed to a payment app serving 5L+ users; leveraged data-driven decisions to improve product performance by 30%.

Product & Portfolio Manager – Digital Banking

YES Bank May, 2018 - July, 2021 Mumbai, MH

- Owned relationships and end-to-end delivery for 40+ corporate clients across Prepaid Cards & Wallets and 45+ partners across AEPS, BBPS & FASTag, driving 10M–15M transactions/month while ensuring regulatory compliance and operational excellence.
- Designed and led implementation of a centralized payment system of record, automating RBI reporting for PPI, AEPS & BBPS and reducing operational overhead; coordinated directly with NPCI and TSPs to lead the bank-wide BBPS implementation program.
- Recognized consistently as a top-3 performer in the department; led and delivered the award-winning Rajasthan Govt. Smart City Project - Bhamashah, ahead of timeline.
