Mobile: +91-8446238633 Email: aashish.telgote@gmail.com LinkedIn: www.linkedin.com/in/aashishtelgote 📍 Mumbai, MH

SUMMARY

Strategic Product Manager with 10+ years in fintech innovation, leading high-impact initiatives across Digital Banking and Payment systems. Expert in cross-functional leadership, compliance-driven execution, and data-informed decision-making.

PROFESSIONAL EXPERIENCE

AVP – Product Lead (Product & Engineering Dept.)

NTT DATA Payment Service India Ltd 📅 Jan 2025 - June 2025 📍 Mumbai, MH

- Spearheaded the Online Payment Gateway vertical, leading a dynamic team of three product managers to drive innovation and efficiency.
- Collaborated cross-functionally with key internal and external stakeholders - including Business/Sales, Marketing, Operations, Banking Alliances, Settlement & Payout, Risk (RCU), Customer Support, and Compliance - to identify challenges and strategize solutions alongside technical teams (Dev, QA, L1, L2, Infra).
- Managing BAU operations, automation projects, and strategic initiatives, partnering with banks, NPCI, and external vendors to enhance payment solutions and streamline processes. Architecting quarterly roadmaps outlining strategic initiatives and goals.

Chief Manager – Digital Transformation

L&T Finance 📅 March 2024 - Jan 2025 📍 Mumbai, MH

- Spearheaded the management of two leading and evolving rural lending products - Farm & WRF - overseeing regular business operations (BAU) and driving innovation with a team of nine professionals. Preparing quarterly roadmaps outlining strategic initiatives and goals.
- Collaborated cross-functionally with diverse stakeholders, including Business, FLOs, Operations, Credit (Underwriting), Risk (RCU), and Compliance, to identify challenges and implement strategic solutions by partnering with Technology teams (Dev, QA, L1, L2, DMS, EDW, SFDC, BRE). Accelerated product delivery speed by 50% through Agile transformation, directly impacting loan disbursal KPI's.
- Contributing to key initiatives from the CDO's office, actively participating in the development of an AI-powered underwriting and credit decisioning engine, resulted in the reduced loan disbursal TAT by 40%.
- Initiated and led the Farm Journey Revamp Project, steering the development of version 2.0 of the farm application to enhance efficiency and functionality.

Senior Product Manager/AVP

Leo1 (Formerly FinancePeer) 📅 Jan, 2023 - July, 2023 📍 Mumbai, MH

- Led the development and management of a robust Loan Management System (LMS) in partnership with TSP-Onefin, successfully onboarding three major lending partners, streamlining operations, and enabling seamless transaction processing of 60M ~ 70M per month.
- Implemented an innovative online payment collection solution, driving a 25% increase in collections, while collaborating closely with compliance teams to ensure alignment across existing and new product initiatives.
- Optimized feature prioritization by balancing customer value with development effort, crafting detailed user stories based on business requirements alongside internal and external stakeholders, resulting in accelerated delivery and significant business impact.

Product Head/Co-Founder

UDMA Technologies Private Limited – A FinTech Startup 📅 July, 2021 - Dec, 2022 📍 Bangalore & Udupi, KA

- Spearheaded & led a team of 8(3 Developers, 1 QA, 1 BA, 1 project manager, 1 digital marketing, 1 UX designer), creating a trusting, respectful team in the process. Preparing quarterly roadmaps outlining strategic initiatives and goals.
- Worked closely with CEO and CFO in redefining the business model, managed outside counsel and negotiated/closed major contracts.
- Drove go-to-market for 3 digital products, scaling to 1.5L+ users by mapping persona-led feature journeys and optimizing onboarding funnel.
- Led to the development and launch of new FinTech products (Implemented BBPS, Prepaid wallets, Neo-Banking & UPI for the first phase) and contributed to the development of a new payment app used by over 5 lakh users. Made data-driven decisions that enhanced product performance by 30%

Product Manager – Digital Banking

YES Bank 📅 May, 2018 - July, 2021 📍 Mumbai, MH

- Integrated, Managed and serviced over 40+ corporate clients for Prepaid Cards & wallets and 45+ corporate partners for AEPS/BBPS/FasTag resulting in direct impact on the businesses with a volume of 10M~15M transactions/month, ensuring the compliances.
- Designed a centralized system of records for the payment system, streamlining operations and automating RBI reporting for PPI, AEPS & BBPS transactions, cutting operational overheads. Implemented BBPS by directly coordinating with NPCI and TSP's for Bank.
- Consistently ranked in the department's top 3 for completing tasks and projects within timelines.
- Managed and handled Smart City Projects and got awarded for completing Rajasthan Govt. Project – Bhamashah, within timelines.
